## Muscogee (Creek) Nation Historic & Cultural Preservation Department Ground Penetrating Radar (GPR) Application

Ground Penetrating Radar (GPR) is a non-invasive geophysical technology; which is able to produce radar imagery that is used to interpret (anomalies/sub-surface features) as either potential burials or untouched soil depending on the conditions of the survey area. This application is to assist in the recordation of Muscogee (Creek) Nation (MCN) associated unmarked burials located within the current tribal boundaries of the MCN. This applies to burials located on a church ground, current/former allotment, and family owned land or private owned land.

Individuals wishing to apply for GPR services should submit this application to:

Muscogee (Creek) Nation  
Historic & Cultural Preservation Dept.  
Attn: Cemetery Preservation Program  
P.O. Box 580  
Okmulgee, OK 74447

*\*\*\*Eligibility will be limited to one (1) request for GPR service every four years. In the event that the applicant does not own the property, the landowner's written permission must be obtained by the applicant and documented within this application.*

### APPLICATION FOR GROUND PENETRATING RADAR

NAME OF CEMETERY: \_\_\_\_\_  
(Print name of the family or church cemetery)

NAME OF APPLICANT: \_\_\_\_\_
