2:30 P.M. – Tribal Alliance for Pollinators / Euchee Butterfly Farm

The Tribal Alliance for Pollinators (TAP) provides training and technical support for tribes throughout North America that want to conserve and restore grassland ecosystems in order to help threatened pollinators and to preserve the native plants that serve as the foundation for Indigenous cultural, medicinal and culinary traditions. Come hear about upcoming trainings and events happening at the farm this year!

POLLUTION FACTS

Agriculture is the leading source of impairments in the Nation's rivers and lakes. About a half million tons of pesticides, 12 million tons of nitrogen and 4 million tons of phosphorus fertilizer are applied annually to crops in the continental United States.
