

Muscogee (Creek) Nation (MCN)

Tribal Family Assistance Plan (TFAP)

SECTION 1: GENERAL PROVISIONS

1.1 Statutory Authority

The 1996 Personal Responsibility and Work Opportunity Reconciliation Act (PRWORA), Section 412, authorized Indian tribes to operate Tribal Temporary Assistance for Needy Families (TANF) program.

The Muscogee (Creek) Nation, in accordance with such authority, implemented a TANF program effective January 1, 2008. This document, in its entirety, constitutes the MCN TANF plan, a three (3) year plan effective January 1, 2026 through December 31, 2028. This plan is being submitted to the U.S. Department of Health and Human Services, Administration for Children and Families, for review and approval.

1.2 Program Administration

The MCN Executive Branch will have overall administrative authority for the MCN Tribal TANF Program. This Program will be administered through the Department of Community and Human Services. Program management responsibilities will be delegated to the MCN Tribal TANF Program. (See Appendix for Organizational Chart)

1.3 Program Purpose

In accordance with the purposes established by Pub.L.104-193 (42 U.S.C 601 (a)), MCN's key areas of focus are to:

- **Provide** assistance to needy families so that children may be cared for in their own homes or in the homes of relatives.
- **Promote** job readiness and assist participants in increasing their employability and enhancing their marketability.
- **Educate** to prevent and reduce the incidence of out-of-wedlock pregnancies.
- **Encourage** the formation and maintenance of two parent families.

To help adults with the basic living expenses so children may be cared for in their own homes or homes of relatives, monthly financial assistance will be provided.

To promote job readiness, participants' work activity options will include activities specific to enhancing one's marketability. Some services may be mandated to address significant employment barriers (e.g. educational deficiencies, mental health and/or substance abuse issues).

To educate on prevention and reduction of out-of-wedlock pregnancies, the MCN Tribal TANF Program will work with youth in communities throughout the program service area. This may be accomplished through guidance, training, education, mentoring, youth services, and other character building activities.

To encourage the formation and maintenance of two parent households, the MCN Tribal TANF Program will offer services that address those challenges. Such services may include, but not limited to: counseling, workshops, parenting skills, Diversion and Transitional services, educational/work incentives, and work subsidies.

1.4 Program Mission

The mission of the MCN Tribal TANF Program is to strengthen American Indian and Alaskan Native families' ability to attain self-sufficiency by providing financial assistance, work experience opportunities and career coaching in a consultative manner that educates, encourages and promotes self-reliance. The MCN Tribal TANF Program also provides mental health counseling for adults and youth with support and services designed to promote academic, social and emotional growth.

1.5 Program Goal

The goal of the MCN Tribal TANF Program is to provide opportunities that will increase the employability of TANF participants through counseling, job training and skill development; educate for healthy and planned pregnancies; and encourage the promotion and formation of two-parent families.

To meet the goal, MCN Tribal TANF will provide temporary support in meeting basic needs, promote and offer training that will lead to employment, and continue to offer and expand youth services.

These goals will be measured the following ways:

- Track the federally mandated work participation rates monthly, quarterly, and annually using our data management system.
- Track participants who obtain employment both while receiving cash assistance and after their TANF case closed. Participants will enter into suspension and transition and continue to report monthly, which will include wages, hours, promotions, or job changes for a period of 12 months.
- Track closed cases by closure reason.
- Track participants who reach milestones while receiving TANF assistance, which include but are not limited to:
 - Educational degree attainment
 - Certification, credential, or license attainment
 - Other related milestones
- Track participation in youth oriented activities by sign in sheets and data management system.
